Planned review date

December 2016

Summary

The review was carried out as part of the NZQA National Qualifications Services planned review programme.

A review panel of assessors, moderators, and representatives from Institutes of Technology and Polytechnics (ITPs), Private Training Enterprises (PTEs), and Government Training Enterprises (GTEs) encompassing both education and workplace training was asked to consider:

- the currency and accessibility of the unit standards
- the accuracy, consistency, and relevance of the content of the unit standards
- the consistency between the levels and credit values of the unit standards and their outcomes.

This panel produced updated versions of the unit standards which were made available on the NZQA website for wider consultation. In particular, providers with consent to assess against the unit standards were invited to comment on these versions.

Main changes

- Credit value of unit standard 11101 has increased from 4 to 5.
- Titles, purpose statements, explanatory notes, outcomes, evidence requirements and range statements have, where applicable, been reworded to clarify and simplify.

Impact on registered qualifications
