Field Community and Social Services

Revision of Sensory Support unit standard 26737

Subfield	Domain	ID
Health, Disability, and	Sensory Support	26737
Aged Support		

Careerforce, the Community Support Services ITO Limited, has completed the revision of the unit standard listed above.

Date new version published

November 2011

Planned review date

December 2015

Summary

This unit standard was registered in October 2010. Following assessment against the unit standard, the sensory support sector advised that that the range statements for outcome statements 3 and 4 needed to be updated to align the unit standard with the Universal Newborn Hearing and Screening and Early Intervention Programme (UNHSEIP).

Main changes

• The range statements for outcome statements 3 and 4 have been updated to specify evidence required for a minimum of two newborns and/or babies instead of evidence required for a minimum of two newborns and babies.
