

**Field      Manufacturing****Review of *Pole and Post Manufacturing* unit standards**

<b>Subfield</b>	<b>Domain</b>	<b>ID</b>
Solid Wood Manufacturing	Pole and Post Manufacturing	20020-20026

The Forest Industries Training and Education Council (FITEC) has completed the review of the unit standards listed above.

**Date new versions published**

**20 October 2011**

**Planned review date**

**31 December 2016**

**Summary**

The review of these unit standards was prompted by their planned review date of December 2011. Consultation on the reviewed unit standards involved an advisory group of industry sector representatives who met to ensure the unit standards were fit for purpose and continued to meet industry requirements.

**Main changes**

- Purpose, explanatory notes, outcomes, range statements and evidence requirements were updated.
- The title of unit standard 20026 was updated.

**Impact on registered qualifications**

<b>Key to type of impact</b>	
<b>Affected</b>	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
<b>Not materially affected</b>	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following FITEC qualification is not materially affected by the outcome of this review and is due for mandatory review in in 2012.

<b>Ref</b>	<b>Qualification Title</b>	<b>ID</b>
1693	National Certificate in Solid Wood Manufacturing (Level 3) with strands in Engineered Wood Product Operations; Planer Operations; Pole, Post and Pile Operations; Saw Doctoring Operations; Sawmilling Operations; Timber Drying Operations; Timber Grading; and Timber Treatment Operations	20026

## Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

<b>Key to review category</b>	
<b>A</b>	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
<b>B</b>	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
<b>C</b>	Major changes that necessitate the registration of a replacement standard with a new ID
<b>D</b>	Standard will expire and not be replaced
