NZQA Māori Qualifications Services (MQS) has completed the revision of the unit standards listed above. The standards were revised as a result of the domains referred to above being included in the Base Scope of Assessment for Schools (BSAS).

Summary

At a meeting held in November 2010, the Whakaruruhau Matua supported the inclusion of all the Level 1-3 Field Māori unit standards to be listed on the BSAS. This would address the issue of low usage of Field Māori in the secondary sector and enable access for rangatahi Māori in schools.

With the review of standards and qualifications in Field Māori, the Whakaruruhau had identified that in the process of the protection and maintenance of mātauranga Māori, barriers were created. These barriers have impacted on building the capability skills and knowledge young Māori need to elevate their participation in becoming the leaders of tomorrow within their own whānau, hapū iwi and community.

The table above also shows the standards in the domains for the level specified when inclusion on the BSAS was approved. This means that all schools with BSAS consent to assess will automatically have their consent to assess scope extended to the domains referred to above to Level 3.

Main changes

The standards are now covered by Consent and Moderation Requirements (CMR) 0226.

The BSAS list has been updated to include the following domains.

Field	Subfield	Domain	BSAS Level
Māori	Environment Māori	Wāhi Tapu	3
	Hauora	Kaupapa Hauora	3
		Tikanga Hauora	3
	Mana Wahine	Te Aho Wahine	3
	Te Ara Nunumi – Bereavement Pathways Māori	Te Ara Nunumi – Ā Kiko	3
		Te Ara Nunumi – Ā Mahara	3
		Te Ara Nunumi – Ā Wairua	3
	Tourism Māori	Environmental Tourism Māori	3
		Tourism Māori Practices	3
	Whenua	Governance of Māori Authorities	3
Te Whakamahi Whenua		3	

Impact on Consent and Moderation Requirements (CMR)

The unit standards have been transferred from Consent and Moderation Requirements (CMRs) 165, 166 and 177 to CMR 226.
