

**Field      Engineering and Technology**

**Revision of *Electricity Supply* unit standard 23784**

<b>Subfield</b>	<b>Domain</b>	<b>ID</b>
Electricity Supply	Electricity Supply - Metering	23784

The Electricity Supply Industry Training Organisation (ESITO) has completed the revision of the unit standard listed above.

**Date new versions published**

**March 2012**

**Planned review date**

**December 2012**

**Summary**

Unit standard 23784 requires a candidate to describe the electricity metering codes of practice. New codes of practice were introduced and the standard was revised to reflect details of the new reference. However, significant changes are being made to the codes of practice at the end of 2012, and the standard will be reviewed at that time.

**Main changes**

All references to the electricity metering codes of practice were updated.

**Detailed list of unit standards – classification, title, level, and credits**

Engineering and Technology > Electricity Supply > Electricity Supply – Metering

<b>ID</b>	<b>Title</b>	<b>Level</b>	<b>Credit</b>
23784	Describe the electricity metering Codes of Practice	4	10
