Revision and roll over of *Electricity Supply* unit standards

Subfield	Domain	
Electricity Supply	Electricity Supply – Power System Management	15574

The Electricity Supply Industry Training Organisation (ESITO) has completed the revision and roll over of the unit standard listed above.

Date new version published

November 2012

Summary

Unit standard 15574 was reviewed in order to update references to legislation and legislative bodies. The Electricity Commission, Electricity Governance Rules 2003, and Electricity Governance Regulations 2003 were all replaced in 2010 by the Electricity Authority, the Electricity Industry Participation Code 2010, and the Electricity Industry (Enforcement) Regulations 2010.

Main changes

- All references to superseded legislation and legislative bodies were updated
- The planned review date of December 2012 was amended to December 2016.
