

Field Manufacturing**Review of *Digital Processes for Print* and *Printing – Graphic Communication* unit standards**

Subfield	Domain	ID
Printing	Digital Processes for Print	23558
	Printing – Graphic Communication	17923, 17924, 17926

The Communications and Media Industry Training Organisation (CMITO) has completed the review of the unit standards listed above.

Date new versions published

October 2012

Planned review date

December 2015

These unit standards were reviewed following feedback from industry that they no longer met the industry requirements for digital printing due to changes in technology and workplace practices. It was agreed that three unit standards would expire and replacement unit standards would be developed to meet these requirements. One unit standard was designated expiring and would not be replaced.

The review group comprised representatives from a range of printing companies, copy shops, digital printing suppliers and organisations involved, and or interested, in digital printing.

Main changes

- Unit standard 17923 was replaced with unit standard 27883.
- Unit standard 17924 is no longer required and will expire without replacement.
- Unit standard 17926 was replaced with unit standard 27884.
- Unit standard 23558 was replaced with unit standard 27881.
- The three replacement unit standards were registered in the *Digital Processes for Print* domain.
- *Printing – Graphic Communication* domain will lapse when unit standard 17924 expires.

Category C and D unit standards will expire at the end of December 2014.

Impact on existing organisations with consent to assess

Current consent for			Consent extended to		
Nature of consent	Classification or ID	Level	Nature of consent	Classification or ID	Level
Domain	Printing – Graphic communication	4	Standards	27883, 27884	4
Standard	17923	4	Standard	27883	4
Standard	17926	4	Standard	27884	4

Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
