

Field Engineering and Technology**Revision and rollover of *Extractive Industries* unit standard 8905**

Subfield	Domain	ID
Extractive Industries	Surface Extraction	8905

The NZ Motor Industry Training Organisation (Incorporated) has completed the revision of the unit standard above.

Date new versions published

September 2013

Planned review date

December 2015

Summary

The unit standard was revised to correct errors in evidence requirements (ERs) for outcome 2 introduced with the registration of version 6.

Version 6 of ER 2.3 incorrectly used the range statement for ER 2.4 of version 5, and ER 2.4 was omitted.

It was strongly recommended that organisations with consent to assess against version 6 of the standard move to version 7 when it is registered.

Main changes

- The range statement for ER 2.3 was amended.
- ER 2.4 was added.
