

Field Engineering and Technology**Reinstatement of *Electronic Installation and Maintenance* unit standard 8191**

Subfield	Domain	ID
Electronic Engineering	Electronic Installation and Maintenance	8191

The Skills Organisation has reinstated the unit standard above.

Date new versions published

April 2014

Expiry date

December 2016

Summary

Unit standard 8191 expired in December 2013, but some candidates need the standard to recognise their learning towards engineering and technology qualifications.

As a result, The Skills Organisation reinstated unit standard 8191 with an expiring status. The new expiry date aligns with the expiry of engineering and technology qualifications, removing any disadvantage to candidates.

Main changes

- The standard setting body (SSB) was updated to reflect the change of SSB.

Engineering and Technology > Electronic Engineering > Electronic Installation and Maintenance

ID	Title	Previous expiry date	New expiry date
8191	Demonstrate systematic and logical fault finding techniques in electronic products or systems	31 December 2013	31 December 2016
