Primary Industry Training Organisation has completed the review of the qualification listed above.

**Replacement qualification**

New Zealand Certificate in Agrichemical Supply (Level 4) [Ref: 2497]

**Date published****August 2014**

The next review of the New Zealand qualification is planned to take place during 2018.

**Summary of review and consultation process**

The review occurred as a result of the mandatory review of Agriculture sector qualifications, part of the Targeted Review of Qualifications (TRoQ). The mandatory review involved extensive consultation with stakeholders working in and with the industry. Consultation included meetings to discuss the need to review the qualifications, and subsequent meetings considered the proposed content of the qualifications.

Industry confirmed the on-going need for a qualification in this area that would recognise graduate capabilities and provide an education pathway for trainees.

The existing national qualification has been replaced by a New Zealand qualification, as detailed below.

**Main changes resulting from the review**

**Transition**

The above national qualification has been designated expiring as a result of the review. The last date for entry into programmes leading to the qualification is 31 December 2016.

The last date to meet the requirements of the replaced qualifications is 31 December 2018 at which point the qualifications will be designated discontinued. From that date no results can be reported against the qualification.

People currently working towards the replaced qualification must complete requirements by 31 December 2018.

It is anticipated that no existing candidates will be disadvantaged by these transition arrangements. However, anyone who feels that they have been disadvantaged may appeal to Primary ITO at the address below. Appeals will be considered on a case by case basis.
