Summary

Changes in the Ministry of Health nutritional guidelines has required unit standard 13343 to be amended to reflect current best practice in nutrition related to commercial catering.

The application of unit standard 27960 to the broader ServiceIQ sectors of travel and tourism and retail has required reference to food safety being removed from this unit standard, as for a number of sectors this is not applicable. Those sectors requiring specific food safety competencies will acquire these by undertaking a specific food safety unit standard.

The changes to both these unit standards were endorsed by industry in January 2014.
