Field Engineering and Technology

Reinstatement of Asphalt Surfacing unit standard 20447

Subfield	Domain	ID
Pavement Surfacing	Asphalt Surfacing	20447

The Infrastructure ITO has reinstated the unit standard listed above as expiring.

Date new version published

July 2014

New expiry date

December 2016

Summary

In March 2012, the former InfraTrain New Zealand conducted a review of all unit standards in the *Pavement Surfacing* subfield and standard 20447 was designated expiring because the outcomes of this standard were duplicated in standard 13519.

The expiry of standard 20447 has made it difficult to award the National Certificate in Pavement Surfacing (Asphalt Paving Machine Operation) (Level 3) [Ref: 1429]. This standard needed to be reinstated, as expiring, so the qualification could be awarded.

Main changes

 Unit standard 20447 was reinstated as expiring, with the expiry date set at 31 December 2016.

Engineering and Technology > Pavement Surfacing > Asphalt Surfacing

ID	Title	Level		Previous expiry date	New expiry date
20447	Demonstrate knowledge of the care and operation of an asphalt paving machine	3	15	31/12/2013	31/12/2016
