Planned review date

December 2018

Summary of development and consultation process

Feedback from users of the standards, and from NZQA, indicated that these standards were fit for purpose and a full review was not needed at this time. The standards were, therefore, revised and rolled over with only minor changes.

Please note that the Level 2 achievement standards that derive from TMoA will be registered in December 2015. The changes to the NZC-derived standards are being made now because they were already being re-versioned to include new review dates and this would avoid the need to publish new versions again next year.

Main changes

- The planned review date for all standards was changed from 31 December 2014 to 31 December 2018.
- The last explanatory note of all the internally assessed achievement standards had the link to the webpage for the Conditions of Assessment updated.
- The NZC-derived achievement standards meeting the outcomes in TMoA were amended to show this.
