The next qualification review is planned to take place during 2018.

Summary of review and consultation process

The review occurred as a result of the mandatory review of Agriculture sector qualifications, part of the Targeted Review of Qualifications (TRoQ). The mandatory review involved extensive consultation with stakeholders working in and with the industry. Consultation included meetings to discuss the need to review the qualification, and subsequent meetings considered the proposed content of the qualification.

Industry confirmed the on-going need for a qualification in this area that would recognise graduate capabilities and provide an education pathway for trainees.

The existing National qualification has been replaced by a New Zealand qualification, as detailed below.
