Reinstatement and Review of *Manufacturing Processes* unit standards

Subfield	Domain	ID
Manufacturing Skills	Manufacturing Processes	4807, 4808

Competenz has reinstated the unit standards listed above.

Date new versions published

November 2014

Planned review date

December 2019

Summary

Competenz reviewed unit standards 4807 and 4808 in March 2011. The standards were designated expiring with a last date for assessment set at 31 December 2013.

Following requests from the industry, Competenz has decided to reinstate the above unit standards.

As part of this process, the unit standards have been reviewed and have been confirmed as fit for purpose with only minor changes to update the explanatory notes and include a new review date.

Main changes

- The explanatory notes for unit standards 4807 and 4808 have been updated.
- A review date has been set for 31 December 2019.

Detailed list of unit standards – classification, title, level, and credits

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced

All changes are in **bold**.
