#### Summary

As a result of their Targeted Review of Qualifications process, ServiceIQ has reviewed a number of their unit standards to better reflect the requirements of the outcomes listed in the new qualifications. During this process, it was identified that these unit standards required amendment to correct some errors.

## Main changes

- The outcomes and evidence requirements of unit standard 13304 were amended to change 'meat' to 'fish' to match the title of the unit standard.
- The explanatory notes (references and legislation) were updated in unit standard 13304.
- Evidence requirement 2.6 was removed from unit standard 27933 because it was a repetition of evidence requirement 2.3.
- Last date for assessment of the superseded versions of the unit standards was specified. Results will not be accepted where the assessment date is after the last date of assessment.
- The planned review date for unit standard 13304 was brought forward to December 2018, instead of December 2019, to better align to the planned review cycle.

# The last date for assessment of superseded versions of Category B unit standards is December 2015
