Summary of review and consultation process

During 2012, a mandatory sector review of qualifications in the Lifting Equipment sector occurred. The review encompassed broad consultation with industry and training provider stakeholders to ensure that the new qualification meets current and future needs. The review resulted in the recommendation that the national qualifications listed above should be replaced by New Zealand qualifications. The replacement New Zealand qualifications have now been listed, and the national qualifications will therefore be phased out.

The review resulted in the national qualifications listed above being replaced by New Zealand qualifications, as detailed below.
