The Skills Organisation has completed the review of the unit standards listed above.

Date new versions published

19 February 2015

Planned review date

31 December 2017

Summary

Following the sector review of the Finance/Financial Services qualifications and the application for listing of the New Zealand Certificate in Financial Services (Level 5) with strands in Financial Advice; Investment; Insurance - Life and Health; Insurance - General; Lending - Residential Property; Lending - Personal; Banking; Trustee Services [Ref: 2315], these unit standards were reviewed to align with the proposed qualification.

Face-to-face meetings with groups of subject matter experts were held for the core and each strand. These meetings identified the required content and compared that with the content of existing standards, where relevant standards already existed. The consultation identified unit standards that were fit for purpose, requiring little change, and unit standards that had little or no relevancy and were no longer required for the proposed qualification. The meetings also identified a need for new unit standards.

Where skills and knowledge are required about legislation, regulations, and codes of practice, the specific enactments are maintained in a separate document available on The Skills Organisation website. Industry terminology has been updated where necessary for currency and consistency.

Main changes

- Unit standards 25650-25653 and 26360 were updated.
- The credit values for unit standards 25650 25652 were increased, as the current credit values were not considered to accurately reflect the learning time required.
- Unit standards 25642-25649, 26286, and 26287 were designated expiring and will not be replaced.
- New unit standards 28359-28389 were developed.
- Relevant content of expiring unit standards 25642-25649, 26286, and 26287 was incorporated into appropriate parts of the new standards.

Category D unit standards will expire at the end of December 2017
