Careerforce (Community Support Services ITO) has completed the review of the unit standards listed above.

Date new versions published

19 March 2015

Planned review date

31 December 2019

Summary

The review of the unit standards above was prompted by the outcomes of the mandatory reviews of qualifications.

The unit standards were reviewed to ensure that they were fit for purpose and relevant, and to consider their alignment with outcomes listed in the new qualifications. Some unit standards from lapsing domains were also reclassified.

A number of unit standards were identified as having a broader application across the health and wellbeing sectors and were reviewed to ensure they were achievable in a range of settings. Unit standards were also updated to replace the terms 'client', 'consumer' and 'patient' with 'person'.

Where gaps were identified new unit standards were created to develop a pathway towards the new qualifications. In some cases, existing unit standards were replaced with new unit standards which aligned more closely with the outcomes of new qualifications.

Consultation on the changes was carried out through a series of meetings with key sector representatives to seek feedback and endorsement. In addition, the changes were notified through publicity on Careerforce's website and a survey inviting comment and feedback.

Unit standards in expiring domains that were not reviewed will be considered in consultation with the sector at a later date.

Main changes

- The level of unit standard 28546 was set higher (Level 3) than the standard it replaced (27140 – Level 2) to more accurately reflect the performance expectations and/or candidate's level of responsibility.
- The credit values of eight unit standards were adjusted to more accurately reflect the time required to achieve the standards.
- Five unit standards were designated expiring and will not be replaced.
- Twelve unit standards were designated expiring and replaced with eight new unit standards.
- Ten new unit standards were developed to meet new requirements identified by the mandatory review.
- Entry information was updated.
- Updated definitions were included in the explanatory notes where relevant.
- A number of unit standards were amended to broaden the context in which they could be achieved.
- All unit standards from lapsing domains were either reclassified to current domains or designated expiring.
- The last date for assessment of superseded versions of reviewed unit standards is 31 December 2016.

Category C and D unit standards will expire at the end of December 2018
