

**Field Planning and Construction****Reinstatement of *Drainlaying* unit standards**

<b>Subfield</b>	<b>Domain</b>	<b>ID</b>
Plumbing, Gasfitting and Drainlaying	Drainlaying	1101, 1107

The Skills Organisation has completed the reinstatement of the unit standards listed above.

**Date new versions published**

**19 March 2015**

**Expiry date**

**31 December 2015**

**Summary**

Unit standards 1101 and 1107 have been reinstated to allow candidates enrolled in version 6 of the National Certificate in Drainlaying (Level 4) [Ref: 0077], to complete the qualification.

In 2007 a unit standard review set these standards to expire at the end of 2014. However, version 6 of the qualification has a last date for assessment of March 2015. This mismatch of dates will prevent those people who have not achieved the expiring unit standards from achieving the qualification.

**Main changes**

Unit standards 1101 and 1107 were reinstated as expiring until 31 December 2015.

**Impact on Consent and Moderation Requirements (CMR)**

The CMR reference was changed from 0008 to 0003. This reflects the rationalisation of CMRs by The Skills Organisation after the merger with the Plumbing, Gasfitting and Drainlaying ITO.

**Impact on registered qualifications**

<b>Key to type of impact</b>	
<b>Affected</b>	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
<b>Not materially affected</b>	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following Skills Organisation qualification is impacted by the outcome of this reinstatement. The classifications and/or standards that generated the status *Affected* are listed in **bold**.

<b>Ref</b>	<b>Qualification Title</b>	<b>Classification or ID</b>
0077	National Certificate in Drainlaying (Installation) (Level 4)	<b>1101, 1107</b>
