

## Field Manufacturing

### Extension of expiry date for *Solid Wood Manufacturing* unit standards

Subfield	Domain	ID
Solid Wood Manufacturing	Timber Grading	141
	Overlay Bonding	1849
	Timber Drying and Treatment	152, 21759, 21760

Competenz has extended the expiry dates of the unit standards listed above.

### Date new versions published

**November 2015**

### Summary

The unit standards are currently designated expiring 31 December 2015.

The Targeted Review of Qualifications (TRoQ) in the Manufacturing sector has resulted in a full unit standards review and resource development.

As part of the TRoQ process the ITO develops transition plans as required by NZQA but in reality, given the vast difference between National Certificates and New Zealand Certificates in size, outcomes and detailed content, there is no relationship between the two so the ITO policy is that the learner finishes what they start.

It is therefore necessary to extend the expiry date of the unit standards to allow enough time for qualification candidates to complete the requirements of their programmes.

### Main changes

- Expiry dates were extended to 31 December 2018.

### Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

ID	Title	Level	Credit	Previous expiry date	New expiry date
141	Operate a mechanical stress grading machine to grade timber	4	20	31/12/2015	<b>31/12/2018</b>
152	Treat wood with light organic solvent preservative	4	20	31/12/2015	<b>31/12/2018</b>
1849	Press wood veneer to wood panel substrates using a veneer pressing system	4	15	31/12/2015	<b>31/12/2018</b>
21759	Pressure treat wood using waterborne preservatives	4	35	31/12/2015	<b>31/12/2018</b>
21760	Treat wood by the diffusion process	4	10	31/12/2015	<b>31/12/2018</b>
