NZQA National Qualifications Services has completed the revision and rollover of the unit standards listed above.

Date new versions published

September 2015

Planned review date

December 2020

Summary

The intended review of these Financial Skills unit standards was deemed unnecessary at this time, by providers and other stakeholders: the consensus was that it would be better to review them after the new New Zealand business qualifications had been used, and so the potential usefulness of these standards would better be gauged. The standards therefore were revised and rolled over, pending review in or by 2020.

Main changes

- An explanatory note was added to each standard, about using credits from these standards for the new New Zealand business qualifications.
- Legislation was updated where necessary.
