

**CMR for Seafood, Animal Product Examination Services, Dairy Processing, Fellmongery and Leather Processing, Leather Manufacturing, Meat Processing, Primary Products Food Processing, Seafood Māori [Ref: 0033]  
CMR for Baking Yeasts and Dairy Manufacturing [Ref: 0022]  
CMR for Seafood and Seafood Māori [Ref: 0123]**

## **Revision of Primary Industry Training Organisation (Primary ITO) CMRs**

Primary ITO has completed the revision of the Consent and Moderation Requirements (CMR) listed above.

**Date new version published**

**April 2016**

The next CMR review is planned to take place during 2019.

### **Summary of revision**

In the Moderation Requirements section of all aforementioned CMRs, there is a statement on mandatory use of Primary ITO developed assessment material to meet the requirements of unit standard 28265, *Develop, implement and review a HACCP application for a food processing operation*.

The only amendment to the CMRs is to remove the phrase 'free of charge' and to include the Primary ITO website for directions to access the assessment materials.

The inclusion of the phrase was an oversight and was removed to align with Primary ITO's intentions for the assessment materials.

### **Compliance with new requirements**

Requirements for consent to assess will apply with effect from April 2016.

Moderation system requirements will apply with effect from April 2016.

Organisations with consent to assess will be expected to be able to demonstrate compliance with the CMR from October 2016.

### **Main changes**

Moderation Requirements

Pre-assessment Moderation

The last sentence of the statement regarding assessment against unit standard 28265 has been amended to now read 'The assessment material is available through the Primary ITO website <https://www.primaryito.ac.nz>'.
