Date replacement qualifications listed

February 2016

The next qualification review is planned to take place during 2021.

Summary of review and consultation process

Between 2013 and 2015, a mandatory sector review of qualifications for the commercial road transport sector occurred. The review included broad consultation with industry and training provider stakeholders to ensure that the new qualifications meet current and future needs.

The review resulted in a recommendation that the national qualifications listed above should be replaced by New Zealand qualifications in order to continue to meet stakeholder needs.

The replacement New Zealand qualifications have been listed, and the national qualifications will be discontinued in December 2019.

Main changes resulting from the review

National Certificate in Commercial Road Transport (Introductory Skills) [Ref: 0189]
replaced by
New Zealand Certificate in Commercial Road Transport (Level 2) [Ref: 3088]

Transition

The last date for entry into programmes leading to replaced qualifications is 31 December 2017. The last date to meet the requirements for the replaced qualifications is 31 December 2019.

People currently working towards any of the replaced qualifications must complete the relevant requirements or transfer to a programme leading to a replacement qualification.

It is anticipated that no existing candidates will be disadvantaged by these transition arrangements. However, anyone who feels that they have been disadvantaged may appeal to MITO at the address below. Appeals will be considered on a case by case basis.

Key to Qualification Review Categories

Category A The qualification is published as a new version with the same NQF ID	Changes are made to SSB name, contact details or purpose statement
	No change is made to title, rules or components of the qualification
	No transition arrangements are required
Category B The qualification is published as a new version with the same NQF ID	Changes are made to title, rules or components
	The new version of the qualification recognises a similar skill set to that recognised by the previous version
	The SSB is confident that people awarded the new or previous version are comparable in terms of competence
	Transition arrangements are required if candidates must gain additional/different credits for the new version
Category C A new (replacement) qualification is published with new NQF ID	Significant changes are made to the qualification in terms of components, structure, type or level
	The SSB views people with the replacement qualification as being significantly different in terms of competence from those with the replaced qualification
	Transition arrangements are required
	Transition may be limited to phase-out dates
Category D Qualification will expire. There is no replacement qualification	Qualification is no longer required by industry
	The qualification is designated as expiring and a last date for meeting the qualification requirements is set
