Revision of *Infrastructure Civil Works* unit standard 20477

Subfield	Domain	ID
Infrastructure Works	Infrastructure Civil Works	20477

The Infrastructure ITO has completed the revision of the unit standard above.

Date new version published

May 2016

Planned review date

**December 2019
(unchanged)**

Summary

The evidence requirements for this unit standard were difficult to gather in some civil industry contexts and after consultation with industry technical experts, the ranges have been made flexible so that evidence collection is not onerous.

Main changes

The evidence requirements from the range statements has been made flexible by adding the condition 'may include but are not limited to'.

The last date for assessment of version 2 of the unit standard is 31 December 2017.
