Summary of review and consultation process

Between 2013 and 2016, a mandatory sector review of qualifications for the beauty sector occurred. The review included broad consultation with industry and training provider stakeholders to ensure that the new qualifications meet current and future needs.

The review resulted in a recommendation that the national qualifications listed above should be replaced by New Zealand qualifications in order to continue to meet stakeholder needs.

The new and replacement New Zealand qualifications have been listed, and the national qualifications have been designated expiring.

Main changes resulting from the review

The reviewed qualifications contain expiring unit standards for which replacement unit standards, or suitable alternatives where applicable, have now been registered. For the

purposes of the expiring qualifications, people who have gained credit for the replacement or alternative unit standards are exempt from the requirement to gain credit for the expiring unit standards. See tables below.
