

Field Planning and Construction**Review of *Plumbing, Gasfitting and Drainlaying* unit standards**

Subfield	Domain	ID
Plumbing, Gasfitting and Drainlaying	Gasfitting	2119, 2120, 2125-2130, 2134
	Plumbing	2146, 2148, 2150, 2152

The Skills Organisation has completed the review of the unit standards listed above.

Summary

These unit standards are overdue for review. During the review of other Plumbing, Gasfitting and Drainlaying unit standards in 2016-2017, it was identified that these unit standards have had little or no usage over the past five years, and are therefore considered no longer fit for purpose.

Should unit standards be needed at Level 5, in the Plumbing and Gasfitting sectors, new unit standards will be written in consultation with the wider industry.

Accredited providers were notified that these unit standards will expire at the end of December 2017.

Main changes

These unit standards were set to expire without replacement.

These Category D unit standards will expire at the end of December 2017**Detailed list of unit standards – classification, title, level, and credits**

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and the same version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
