

Field Manufacturing**Review of *Primary Products Food Processing - Core Skills* unit standard 28264**

Subfield	Domain	ID
Primary Products Food Processing	Primary Products Food Processing - Core Skills	28264

The Primary ITO has completed the review of the unit standard listed above.

Date new version published

July 2017

Planned review date

December 2022

Summary

As a result of the Targeted Review of Qualifications process, and at the request of the Ministry for Primary Industries (MPI), Primary ITO has reviewed this unit standard to better reflect the requirements for industry.

Key stakeholders, MPI, and organisations with consent to assess have had the opportunity to review these changes and offer feedback.

Due to this unit standard being referenced in MPI's Overseas Market Access Requirements (OMAR), MPI have requested that the unit standard number remain the same and that these changes are made to the existing unit standard rather than a new unit standard being developed.

Main changes

- Changes were made to unit standard 28264, including to its title and credit value.

The last date for assessment of the superseded version of the Category B unit standard is 31 December 2022.

Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced

Manufacturing > Primary Products Food Processing > Primary Products Food Processing - Core Skills
