

**Field      Manufacturing****Extension of expiry date of *Glass and Glazing* unit standards**

<b>Subfield</b>	<b>Domain</b>	<b>ID</b>
Glass and Glazing	Automotive Reglazing	22351
	Flat Glass	20494, 20500, 20502

Building and Construction Industry Training Organisation (BCITO) has completed the extension of expiry dates of the unit standards listed above.

**Date versions published****July 2017****New expiry date****December 2020****Summary**

The unit standards above are included in version 3 of the National Certificate in Glass Processing (Level 3) [Ref: 1103] and the National Certificate in Automotive Reglazing (Level 3) [Ref: 1249], which have been replaced by the New Zealand Certificate in Glass Processing (Level 4) [Ref: 2946] and the New Zealand Certificate in Automotive Reglazing (Level 3) [Ref: 2947].

The last date for assessment of version 3 of the replaced qualifications is 31 December 2020, which does not align with the last date for assessment for these unit standards. As a result, the unit standards required a change in expiry date to allow learners who are enrolled in version 3 of the qualifications, and unable to transition to the replacement qualifications, to complete the qualifications.

**Main changes**

- The expiry date of the standards above was extended from 31 December 2017 to 31 December 2020.
