Summary

The review of these standards was initiated following the listing of Level 4 New Zealand Certificates in Plumbing, in Gasfitting, and in Drainlaying, to ensure that they are fit for purpose, relevant to the Plumbing, Gasfitting, and Drainlaying (PGD) sectors and are readily available for assessment. Industry representatives from the PGD Sector Review and Qualification Development Groups were involved in the review and writing of these unit standards and provided feedback on the unit standards.

Main changes

- Changes were made to accurately reflect sector terminology, changing trade practices, and emerging materials.
- Three unit standards were reviewed as Category B.
- Eighteen unit standards were reviewed as Category C and replaced by fifteen new standards.
- Four new unit standards were developed.

Category C unit standards will expire at the end of December 2022

The last date for assessment of superseded versions of Category B unit standards is December 2022
