

## **CMR for Building and Construction [Ref: 0048]**

### **Revision of *Building and Construction ITO* CMR**

The Building and Construction ITO (BCITO) has completed the revision of the Consent and Moderation Requirements (CMR) above.

#### **Date new version published**

**April 2018**

The next CMR review is planned to take place during 2020.

#### **Summary of revision**

The BCITO in keeping with self-assessment processes and continuous improvement identified an opportunity to improve moderation processes mainly with schools delivering *Building, Construction, and Allied Trades Skills* (BCATS) standards. Informal feedback from the traditional postal moderation system clearly indicated a lack in value with this type of moderation, accordingly a cluster workshop approach has been established. This will encourage peer moderation, peer to peer learning and other professional development opportunities for assessors and tutors operating in this space.

CMR 0048 has been modified only under the post-assessment moderation heading. There is no significant impact on organisations seeking consent to assess. As BCITO has informally been running this process, schools are already engaging with positive feedback.

#### **Compliance with new requirements**

Moderation system requirements will apply with effect from May 2018.

Organisations with consent to assess will be expected to be able to demonstrate compliance with the CMR from January 2018 onwards.

#### **Main changes**

Moderation Requirements (MR)

Moderation System

- Post assessment moderation – wording has been changed to reflect the new cluster workshops.
