Development of *Automotive Fuel Systems and Exhaust* unit standard 31194

MITO New Zealand Incorporated (MITO) has completed the development of unit standard 31194.

Date new version published

April 2018

Planned review date

December 2022

Summary

The development of this unit standard was prompted by MITO developing new unit standards to reflect the graduate profile outcomes in the New Zealand Certificate qualifications where existing unit standards were not fit for purpose.

The development of this unit standard has resulted in fit-for-purpose assessment content being made available to industry that reflects current industry practice.

Feedback was gathered from stakeholders and used to guide the development of 31194 and the unit standard was endorsed by the stakeholders involved.

Details of the unit standard – classification, title, level, and credits

Engineering and Technology > Motor Industry > Automotive Fuel Systems and Exhaust

ID	Title	Level	Credit
31194	Demonstrate knowledge of carburettor operation	3	5
