

Field Planning and Construction**Revision of *Survey Practice* unit standard 29407**

Subfield	Domain	ID
Surveying	Survey Practice	29407

The Infrastructure ITO has completed the revision of unit standard 29407.

Date new versions published **April 2018**

Planned review date **December 2020**

Summary

This unit was revised at the request of the New Zealand Institute of Surveying and professional surveyors who considered that the credit value was not correct in terms of the time requirements for carrying out engineering surveys. They compared the outcomes from this unit with similar units in surveying and requested the credit value increase.

Main changes

- The credit value of unit 29407 increased from 15 to 20.

The last date for assessment for the superseded version of this Category B unit standard is 31 December 2018.
