## Field Engineering and Technology

### Development of Automotive Preventive Maintenance unit standard 31390

MITO New Zealand Incorporated (MITO) has completed the development of this unit standard.

#### Date new version published

### Planned review date

December 2023

August 2018

### Summary

The development of the unit standard was prompted by MITO developing new unit standards to reflect the graduate profile outcomes in the New Zealand qualifications for the Motor Industry where existing unit standards were no longer fit for purpose.

The development process has resulted in fit-for-purpose assessment content, that reflects current industry practice, being made available to industry.

Feedback was gathered from stakeholders and used to inform development of the unit standard. It was subsequently endorsed by the stakeholders involved.

# Details of the unit standard - classification, title, level, and credits
