

Field Engineering and Technology**Review of *Electricity Supply* unit standards**

Subfield	Domain	ID
Electricity Supply	Electricity Supply - Core Skills	30513
	Electricity Supply - Power System Management	19479

Infrastructure ITO (Connexis) has reviewed the unit standards listed above.

Date new versions published

July 2018

Planned review date

December 2023

Summary

The unit standards were reviewed, and a new unit developed, after industry feedback that some of the assessment conditions from the Network Control qualification were not being met and reviewing the units would remedy this.

Main changes

- Unit standards 19479 and 30513 were reviewed with minor changes.
- Level of unit standard 19479 increased from 3 to 4 for using specialist equipment.
- One new unit standard was developed for distribution network control as the Network Control role holder works in energy distribution.

The last date for assessment of the superseded versions of the Category B standards is 31 December 2019
