The Infrastructure ITO (Connexis) has completed the review of the qualifications listed above. The qualifications have been discontinued because they are no longer being used.

Date of qualification expiry**June 2018****Summary of review and consultation process**

Connexis has discontinued the following qualifications because there are no trainees enrolled in them. New Zealand Certificates were developed in consultation with industry and these are listed on the New Zealand Qualifications Framework for the sectors that still require qualifications. There is no industry demand for the demolition qualifications.

It is anticipated that no existing candidates will be disadvantaged by this review as there are no trainees enrolled in them. However, anyone who feels that they have been disadvantaged may appeal to Connexis at the address below. Appeals will be considered on a case-by-case basis.
