**Field**      **Engineering and Technology**

**Rollover and Revision of *Computer Engineering* standards**

| Subfield | Domain | ID |
|---|---|---|
| Electronic Engineering | Computer Engineering | 11566, 11583, 16976, 16981, 16982, 16989, 22712, 22713, 22715-22719 |

The Skills Organisation has completed the rollover and revision of the unit standards listed above to maintain their currency.

**Date new versions published**                              **June 2018**

**Planned review date**                                      **December 2021**

**Summary**

These unit standards have been revised to ensure currency.  The Skills Organisation plans to carry out a review of all the standards in the *Computer Engineering* domain in 2020.

**Main changes**

- New versions of the standards issued.
- Standards transferred to the latest unit standard template.
- Guidance information updated with current codes of practice, Standards, and reference material.
- The following references in Unit standard 22718 were removed:
    - AS 3875-1991: Information technology – Program constructs and conventions for their representation;
    - IEEE Std 990-1987 IEEE Recommended Practice for Ada As a Program Design Language.
