

**Field Planning and Construction****Revision of *Survey Practice* unit standard 29406**

| <b>Subfield</b> | <b>Domain</b>   | <b>ID</b> |
|-----------------|-----------------|-----------|
| Surveying       | Survey Practice | 29406     |

The Infrastructure ITO has completed the revision of the unit standard listed above.

**Date new version published**

**May 2018**

**Planned review date**

**31 December 2020**

**Summary**

This unit standard was revised because the New Zealand Institute of Surveying and professional surveyors considered that the credit was not correct in terms of the time requirements for checking and maintaining survey equipment. They compared the outcomes from this unit with similar units in surveying and decided to update the credit value.

**Main changes**

- The credit value of unit 29406 was increased from 12 to 15.
- A last date for assessment of version 1 of this standard was specified (31 December 2018).

**Detailed list of unit standards – classification, title, level, and credits**

All changes are in **bold**.
