

Field **Law and Security**

Revision of *Building Control Surveying* unit standards

Subfield	Domain	ID
Compliance and Law Enforcement	Building Control Surveying	31132-31136

The Skills Organisation has completed the revision of the unit standards listed above.

Date new versions published

May 2018

Planned review date

December 2023

Summary

The revision of these standards was initiated following the lodging of an application for approval of a programme of industry training for the Level 4 New Zealand Certificate in Building Regulatory Environment. Changes were made to better fit the standards to the graduate profile outcomes of the qualification.

Main changes

- Changes were made to more firmly embed the application of skills and knowledge in the requirements of the standards.
