

Field Service Sector**Development, review and reinstatement of *Stevedoring and Ports Industry* unit standards**

Subfield	Domain	ID
Stevedoring and Ports Industry	Cargo Operations	20054
	Port Machinery Operations	11517

MITO New Zealand Incorporated (MITO) has completed the review of unit standard 20054 and the reinstatement of standard 11517.

Date new versions published

May 2018

Planned review date

December 2022

Summary

As a result of the Targeted Review of Qualifications process, it became necessary for MITO to review stevedoring and ports industry unit standards to better reflect the requirements of the outcomes listed in the new qualifications and to ensure they remain fit-for-purpose. Alongside industry, MITO has reviewed one standard, reinstated one standard and developed one new standard. These standards align with the New Zealand Certificate in Port Operations (Level 3) with strands in Port Administration, Cargo Handling, and Heavy Machine Operation [Ref: 2814].

MITO was supported by the industry's working group during this review. Representation in the working group included subject matter experts from several New Zealand ports, industry and MITO representatives. The standards were also circulated in the working group's greater networks and all feedback was actioned where appropriate.

Main changes

- Entry information and guidance Information, including references to legislation and formal requirements, were updated in standard 20054.
- Performance criteria and range statements were amended in standard 20054.
- The title of standard 20054 was updated to reflect the relevant personnel.
- Standard 11517 was reinstated at the request of industry.
- Guidance information, performance criteria and range statements in standard 11517 were updated to reflect current industry practice.
- Standard 31093 was developed at the request of industry for cargo handlers involved with slinging cargo.
- Unit standard 30072 was introduced as a pre-requisite requirement for standard 11517 and standard 31093 at the request of the Crane Association of New Zealand.

The last date for assessment of superseded versions of Category B unit standards is 31 December 2020

Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and the same version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced

Service Sector > Stevedoring and Ports Industry > Cargo Operations
