

Field Engineering and Technology**Revision of *Metal Surface Finishing* unit standards**

Subfield	Domain	ID
Mechanical Engineering	Metal Surface Finishing	2363, 16961

Competenz has completed the revision of the unit standards listed above.

Date new versions published

October 2018

Planned review date

December 2021

Summary

These unit standards were revised to extend the last date of assessment of a previous version to align with the last date of assessment of the National Certificate in Engineering - Fabrication (Level 4) with strands in Heavy Fabrication, Light Fabrication, and Steel Construction [Ref: 0122] and the programs that these unit standards form part of.

These units are fit for purpose and will be reviewed as planned in 2021.

Main changes

- The last date for assessment for 2363 v5 and 16961 v2 was extended to 31 December 2022.
