	Production Horticulture	2805
Wool Harvesting	Wool Classing	9098-9101, 9110, 17517-17519

Primary ITO has completed the review of the unit standards listed above.

Summary

These unit standards have had no reported usage for at least the past five years. All consent to assess holders were consulted by email in April 2018, asked if they would like the unit standards retained, and given four weeks to respond. A reminder was sent one week before the deadline for responses. There were no responses received. Therefore, there is no future need for the standards and it was determined that the standards should be expired without replacement.

Main changes

- The unit standards were set to expire without replacement with immediate effect.
