

**Field Community and Social Services****Review of *Recreation and Sport - Aquatics* unit standards**

<b>Subfield</b>	<b>Domain</b>	<b>ID</b>
Recreation and Sport	Recreation and Sport - Aquatics	5687, 2694, 20046, 25980, 25982

Skills Active Aotearoa has completed the review of the unit standards above.

**Date new versions published November 2019**

**Planned review date December 2024**

**Summary**

The review of these unit standards was prompted by development of a Programme of Industry Training leading to the New Zealand Certificate in Aquatic Treatment Systems (Level 4) [Ref: 3504].

Feedback from stakeholders was gathered through an open consultation process and used to guide the development of the industry training programmes for the qualification above, and the review and development of the associated unit standards.

A technical advisory group was convened to review and confirm the content of the unit standards.

Four of the reviewed unit standards were found to no longer be fit for purpose, relevant nor aligned with outcomes listed in the new qualification.

Five new unit standards were developed to meet industry needs for people treating aquatic systems.

**Main changes**

- Unit standards 5687, 5694, 25980 and 25982 were designated expiring without replacement as they no longer align with industry need.
- Five new unit standards were developed to meet industry needs for people treating aquatic systems.
- Guidance information was updated in unit standard 20046.

**Category D unit standards will expire at the end of December 2021**

**The last date for assessment of superseded versions of the Category B unit standard is December 2021**

**Detailed list of unit standards – classification, title, level, and credits**

All changes are in **bold**.

<b>Key to review category</b>	
<b>A</b>	Dates changed, but no other changes are made - the new version of the standard carries the same ID and the same version number
<b>B</b>	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
<b>C</b>	Major changes that necessitate the registration of a replacement standard with a new ID
<b>D</b>	Standard will expire and not be replaced
