2561-1	New Zealand Certificate in Dairy Systems (Engineering) (Level 4) with strands in Milking Systems, and Pumping Systems	4	210

Review information

Qualification Developer	Competenz
Reason for the review	Scheduled Review
Date replacement qualifications listed	November 2019
Next qualification review date	31 December 2024

Summary of review and consultation process

The scheduled review and consultation process began in January 2019 with the NZ Milking Pumping Trades Association (NZMPTA) Council, and representatives of the sector. Stakeholders were informed of proposed changes and given opportunity to provide feedback, this process has been reinforced and followed up on by the Executive Officer of NZMPTA.

Main changes resulting from the review

Removal of GPOs 4 and 5 and their incorporation into GPO 3 to create a consolidated focus on health and safety.

The removal of the mandatory condition attached to GPO 5.

A new mandatory condition for GPO 3. This condition clearly informs the learner of their limitations for carrying out electrical work as set out by the Electrical Workers Registration Board (EWRB).

Review outcome

[Ref:]	Qualification title	Outcome	Replacement
--------	---------------------	---------	-------------

		category	qualification (if applicable)
