### Summary of review and consultation process

These qualifications were reviewed and replaced in 2017. There has been a delay in programmes being developed for the replacement qualifications, the New Zealand Diploma in Aviation (General Aviation) (Level 5) with strands in Aeroplane, and Helicopter [Ref: 3688] and the New Zealand Diploma in Aviation (Level 6) with strands in Aeroplane Flight Instruction, Aeroplane Airline Preparation, Helicopter Flight Instruction, and Helicopter Airline Preparation [Ref: 3689].

There would be a detrimental impact on learners and flight trainers if programme delivery was interrupted. The last dates for entry and last dates for assessment of both the qualifications have been extended to allow time for programmes leading to the replacement qualifications to be developed.

### Main changes resulting from the review

Both qualifications have been republished to include these date changes:

- Last date for entry extended from 31 December 2019 to 31 July 2020
- Last date for assessment extended from 31 December 2021 to 31 December 2022.
