Field Manufacturing

Revision of Manufacturing Processes unit standard 29366

Subfield	Domain	ID
Manufacturing Skills	Manufacturing Processes	29366

Competenz has completed the revision of the unit standard listed above.

Date new version published

Planned review date

September 2019

December 2020

Summary

This unit standard was revised to update terminology relating to recommended diet.

Main changes

• In Performance Criterion 3.4, the term 'food pyramid' was replaced with meal portion sizes and the ratios of various food groups, as recommended by current food and nutrition guidelines provided by the New Zealand Ministry of Health.
