

Field **Engineering and Technology**

Review of *Infrastructure Asset Management* unit standards

Subfield	Domain	ID
Infrastructure Civil Engineering	Infrastructure Asset Management	18926-18928, 18930

Connexis Infrastructure ITO has completed the review of the unit standards listed above.

Date new versions published

August 2019

Planned review date

December 2024

Summary

Connexis reviewed the four unit standards above to enable them to be applied in a range of industries.

Consultation with industry stakeholders occurred from November 2018 to April 2019 and resulted in general agreement with the proposed changes.

Main changes

- References to manuals or principles were amended to reflect current titles, correct publication dates and reduce duplication.
- Outcome statements were amended to ensure clarity for users.
- The titles of the unit standards were changed to better reflect the intention of the unit standard and to remove duplication across other procurement unit standards.

The last date for assessment of superseded versions of Category B unit standards is December 2021

Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
