

Field Sciences

Review and revision and rollover of *Mathematics* unit standards

Subfield	Domain	ID
Mathematics	Algebra	5223
	Number	26567
	Trigonometry	5236

NZQA National Qualifications Services has completed the review, and revision and rollover, of the unit standards listed above. The unit standard in **bold** has been rolled over

Date new versions published

August 2019

Summary

These unit standards were last reviewed in 2016. As part of the normal cycle of maintenance, a review panel examined the standards to determine if they were meeting identified needs and were useful and relevant to current and future learners and their employers.

As a result of the review, the panel recommended that unit standards 5223 and 26567 be expired because of low usage. Stakeholders confirmed unit standard 5236 continued to meet identified needs and supported its revision and rollover.

Main changes

- Unit standards 5223 and 26567 were designated expiring and will not be replaced.
- Unit standard 5236 was moved to the new template and planned review date was extended to 31 December 2021.

Category D unit standards will expire at the end of December 2021

Detailed list of unit standards – classification, title, level, and credits

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced

Reviewed unit standards

Sciences > Mathematics > Algebra

ID	Title	Level	Credit	Review Category
5223	Use formulae and equations to solve problems in the workplace	1	1	D

Sciences > Mathematics > Number

ID	Title	Level	Credit	Review Category
26567	Estimate the solutions to number problems and make estimates of measurements in the workplace	1	2	D

Revised and rolled over unit standard

Sciences > Mathematics > Trigonometry

ID	Title	Level	Credit
5236	Use Pythagoras' theorem and trigonometry to solve problems related to right-angled triangles in the workplace	1	1
