

Field Service Sector

Review of *Rigging* unit standards

Subfield	Domain	ID
Lifting equipment	Rigging	4212-4216

The Skills Organisation has completed the review of the unit standards listed above.

Date new versions published

January 2019

Planned review date

December 2023

Summary

The Skills Organisation and the rigging sector held three meetings to discuss the graduate outcomes and conditions that had to be met for the rigging qualifications.

Main changes

- Unit standards 4212 and 4213 changed from Level 2 to Level 4 to reflect role competencies for intermediate rigging work.
- Unit standards 4214 and 4215 changed from Level 3 to Level 4 to reflect role competencies for intermediate rigging work.
- Credit values of unit standards 4212-4215 were changed to accurately reflect the time taken for the role competencies of an intermediate rigger.
- Unit standard 4216 was designated expiring because dismantling structures is part of intermediate rigging work and is now Outcome 6 in Unit standard 4215.
- Two new unit standards were developed to meet the conditions of safe nets installation and working at heights safely, and for the installation of temporary structural anchors.
- Unit standards 4212-4215 were reclassified from the *Rigging* domain (designated expiring) to the *Core Rigging* domain.

The Category D unit standard will expire at the end of December 2020

The last date for assessment of the most recent superseded versions of Category B unit standards is December 2020

Impact on existing organisations with consent to assess

Current consent for			Consent extended to

Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
