	Generic Infrastructure Works	31245

Connexis Infrastructure ITO has completed the review of the unit standards listed above.

Date new versions published

July 2019

Planned review date

December 2024

Summary

The purpose of this early review is to respond to industry feedback and to keep the unit standards current and fit for purpose. Industry feedback related to issues with the content of the unit standards, the guidance information, outcomes and performance criteria, identified by industry technical advisers and subject matter experts. Feedback was received by email and during the website industry consultation throughout April and May 2019.

Consultation feedback summary reports are available on the Connexis website.

Main changes

- The title of unit standard 23637 was amended to remove the infrastructure context to enable all users of 23637 to assess against this unit standard.
- Guidance information in both unit standards was updated to include current legislation and amend definitions.
- Outcomes, performance criteria, and range statements in both unit standards were amended to reflect current industry practice.
- Outcome 4 in unit standard 23637 was removed to address duplication of skills and knowledge already included in unit standard 31245.

The last date for assessment of superseded versions of Category B unit standards is December 2021
